Building Community Spirit

Charles Dickens, one of the most celebrated authors of the Victorian era, was more than just a masterful storyteller. Through his novels and public engagement, Dickens played a significant role in fostering community spirit and encouraging social responsibility. His life and works continue to inspire people to come together, support one another, and foster a sense of unity that strengthens society as a whole. In this tradition, several Port Jefferson based organizations deliver interesting and educational offerings. Expanded information is in the schedule.

Music and Magic

Charles Dickens loved music and was deeply involved with it, enjoying a wide range of musical activities from singing popular songs as a boy to appreciating classical composers like Mendelssohn and Mozart. He also wrote the libretto for an operetta, played the accordion and befriended many musicians. Charles Dickens also had a deep and multifaceted relationship with magic, both as a devoted amateur magician who performed shows and as a writer whose work was influenced by magical elements. He additionally wrote about English country dancing. The following performance list, brought to you by Stony Brook University, delivers a wide variety of musical styles, a magic show and a fashionable Victorian contra dance party.

A Tale of Two Events:

In “A Tale of Two Cities”, Dickens described life events between Paris before and during the French Revolution and London (1775 and 1793). In our own way we have two “Best of Times” events happening at the First United Methodist Church at 603 Main Street by Theatre Three on one side of town and at the Harbormaster Building at 130 West Broadway on the other. Both are very walkable from the center of the Dickens Festival activities and worth every step. Additionally, when visiting Tiny Tim’s Train Station at the Harbormaster Building, take a stroll down Barnum Avenue (across the street) or down Maple Avenue after visiting the Methodist Church to visit the Episcopal Church at 127 Barnum Avenue for spectacular concerts and their famous Chocolate Extravaganza!

Santa Claus Central, Mrs. Cratchett’s Craftworks, Copperfield Hall

The First United Methodist Church in Port Jefferson is host this year to Copperfield Hall featuring one-hour concert performances, Mrs. Cratchit’s Craftworks and the Dickens Festival traditional event, Santa Claus Central. The ground floor entrance to the church takes you into Santa Claus Central, an amazingly designed area where children can get a photo op with Santa himself in his giant green chair surrounded by busy Elves. When waiting on the line, special note paper is available for children to fill out their gift suggestions for Santa. The church also has their Cookie Walk with gobs of delicious home-made cookies for sale. When done with visiting Santa, families can go up the back stairs to the returning Mrs. Cratchit’s Craftworks. It is here that children of all ages can purchase a seasonal ornament packet and put it together as a Dickens keepsake. Going up the brick stairs on the side of the church brings one to the new Copperfield Hall. A select group of performers deliver stunning one hour performances, including joyous choirs. The Reed Family Train Project at Tiny Tim’s Train Station – Toys-for-Tots.

The wonderfully decked-out-for-Christmas model train exhibit, located at the Harbormaster’s Building in Port Jefferson, is a yearly favorite provided by The Reed Family Train Project. Taking literally weeks to assemble, this truly stunning exhibit is sure to captivate one and all. The location will also be host to the Toys-for-Tots toy-raising event. Festival visitors are encouraged to bring new, unwrapped toys and drop them in the collection box next to the exhibit while looking at different model train sets course around the setup. This visual magic is brought to you by The Laurel Hill School, Chick-fil-A, The Gitto Group, Orsted, Bryant Funeral Home and the Town of Brookhven.

Beginning in 1763, Scottish engineer James Watt tinkered with the original steam engine design that led to the first steam engine locomotive prototype built by British engineer Richard Trevithick in 1804. 1814 witnessed the first successful steam engine train, built by British engineer George Stephenson, that could haul up to 30 tons of coal at a “breakneck” uphill speed of four miles per hour. Train tracks were soon found crisscrossing the globe as the steam locomotive helped to usher in the Industrial Era in Britain and America. Charles Dickens was so amazed by this new invention, he named a powerful new breed of locomotive, built for speedy service on the American Baltimore & Ohio Railroad’s expanding system, the Pegasus, commenting, “If it had spread its wings and flew away, no one would be the least bit surprised!”

Our traditional A Christmas Carol Radio Show returns in the Sail Loft room on the third floor along with a Saturday Holiday Sing-a-long performance by Denise Romas. A special early evening concert by mandolin star, Buddy Merriam, sponsored by [Douglas Elliman Real Estate](#), rounds out the third-floor performances.

The second floor is extra special this year featuring the traditional Festival of Trees presented by the [Port Jefferson Chamber of Commerce](#) and the [Village of Port Jefferson](#). Local businesses gather to decorate the Christmas trees to the nines! Hollywood would be jealous! When you walk down the isle of trees, you come to the new [Charles Dickens Creative Study](#), sponsored by [State Farm Stephanie Sgroi Agency](#). This elaborately decorated area brings you back to the Dickens' study area in Victorian England and features the four giant ghosts from A Christmas Carol as a photo op. WOW!
